

35. The shoe insert of claim 22, wherein said cohesive coating is applied along the outside portion of the material layer by means of an adhesive spray.

36. The shoe insert of claim 35, wherein said adhesive spray applies said cohesive coating to the outside portion of said material layer in a pattern selected from the group consisting of melt-blown, vertical spiral and horizontal spiral.

37. The shoe insert of claim 35, wherein said cohesive coating is applied in an amount between about 1 and 100 milligrams per square inch.

38. The shoe insert of claim 22, wherein said cohesive coating is applied along the outside portion of the material layer by means of an extrusion.

39. The shoe insert of claim 38, wherein said cohesive coating is applied to the outside portion of the material layer in a pattern selected from the group consisting of vertical comb slot-coat and horizontal comb slot-coat.

40. The shoe insert of claim 38, wherein the cohesive coating is applied to the outside portion of the material layer as an intermittent comb-slot coat.

41. The shoe insert of claim 38, wherein said cohesive coating is applied in an amount between about 5 and 250 milligrams per square inch.

---

#### **REMARKS**

This Amendment is submitted in response to the Office Action dated September 13, 2002, wherein the Examiner requested applicant to elect a single disclosed species for prosecution on the merits to which the claims will be restricted if no generic claim is held allowable.
